

MyWebsite Design Service

A website designed by experts.

Build a website your visitors will love.

- ✓ Designed to match what you had in mind
- ✓ We'll do all the work, leaving you free to focus on your business
- ✓ Get online within days

Turning your ideas into an engaging website

Our design team will build you a website that looks great, brings in visitors and ranks on Google. We'll plan, create and even maintain a professional website that strengthens your brand and helps tell the world your story.

- **Dedicated team of marketing, design, text and SEO experts**
- **High-quality stock images from our own image archive**
- **Integration of your existing material – we can also create logos, icons and graphics on request**
- **Creation of engaging, search engine optimised text – we can also edit any existing text**
- **Free, personal consultation and an optional maintenance service for any future changes**
- **Experience of what works – we've built more than 20,000 successful websites**

What our customers are saying

IONOS has been great to us from the start! With them taking over the design, I could fully concentrate on my business. The most positive effect of the service was the astonishing growth in new customers. It's important to me that we continue to develop our website with IONOS.

Manuel Schlosser

The collaboration with IONOS in creating a website was excellent, simple and uncomplicated. Everything, including our logo, was integrated just as I had imagined.

Peter Rodingder

"MyWebsite Design Service is the affordable solution for anyone who doesn't have time to create their own website. We do the heavy lifting for you, without compromising on quality."
Patrick Schaudel, Head of MyWebsite Services at IONOS

Our three principles for building your website

Structure

A clear and logical website structure makes it easier for your customers to find their way around.

Clarity

Our copywriters use language that's easy to understand and tailored to online reading habits.

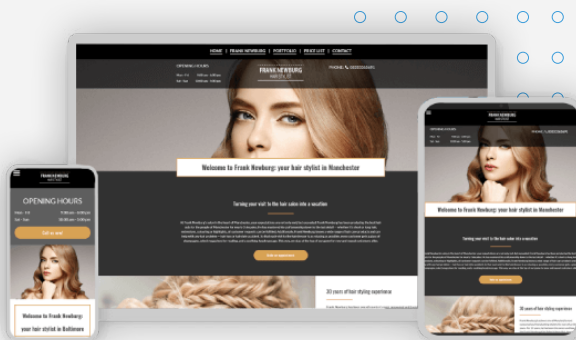

Ease-of-use

User-friendly elements like buttons, forms and links allow customers to interact with your site.

Design examples

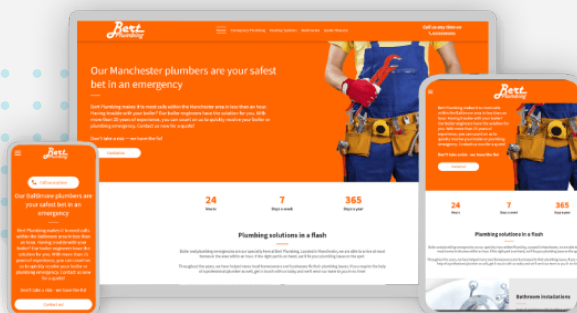

Your website's design shows visitors which industry you're in at a glance. And the content is structured so that users can quickly find their way around.

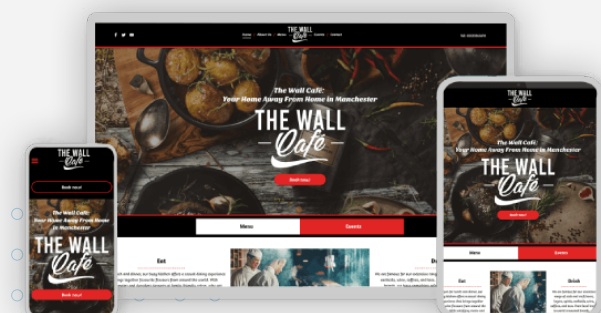

Beauty

Healthcare

Trades

Restaurants

From idea to online in a few steps

Initial consultation

In the initial phone consultation, we'll ask you about your vision, your business or project and your website goals. Together we'll come up with a concept for a website that your visitors will love.

Creation

Within a few days you'll receive a preview link to the first draft of your new website. We'll contact you via email or over the phone to go through any changes you want made so that it matches what you had in mind.

Approval

Once you've given it the OK, you'll receive an email with simple instructions on how to publish your website. And if you ever need any help, we're only a call or email away.

Updates

Keeping your site fresh with new content is vital for keeping customers engaged. On request, we can implement advertisements for current offers and make updates on a regular basis. Or you can do it yourself with the easy to use website builder.

Future-proof tech

We're constantly updating our infrastructure and technology so you can rest assured that your website will always give your visitors the best user experience.

A whole team working for you

"In our initial telephone call, I'll get to know you and talk about what you want to achieve with your website. Who do you want to address? What makes you and your business unique? Once I know what goals you have in mind, I can start planning the best website for you."

Çağla

Marketing Expert and Project Manager

"I'll provide copy that suits you and your industry, and is search engine friendly. For example, I'll find out the most frequently searched keywords and then use them on your website. I'm also happy editing and checking your existing copy if needed."

Marie

Copywriter

"It's my job to make your website look great. I'll make sure that it's tailored to your demands and fulfils the needs of your customise. I'll choose the best design for you and customise it with your own photos and stock images from IONOS."

Sebastian

Web Designer

"All you need to do is tell us what you're looking for in a website – we'll take care of the rest. This saves you time you don't have, and on top of that you'll get a professional website."
