What our customers are saying

IONOS has been great to us from start to finish! With them taking over the design, I could fully concentrate on my business. The most positive effect of the service was the astounding growth in new customers. It's important to me that we continue to develop our website with IONOS.

Manuel Schlosser

Working with IONOS on creating the website was outstanding, simple and uncomplicated. Everything, including our logo, was done exactly as I had imagined.

Peter Rodingder

"MyWebsite Design Service is the affordable solution for anyone who doesn't have the time to create their own website. We do all of it for you without compromising on quality."

Patrick Schaudel, Head of MyWebsite Services, IONOS

Our three pillars for building your website

Structure

A clear and logical website structure makes it easier for your customers to find what they're looking for.

Clarity

Our copywriters use language that's not only easy to understand, but designed to be read on screen.

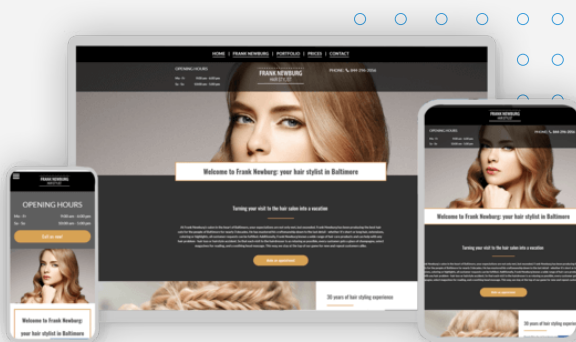

Ease of use

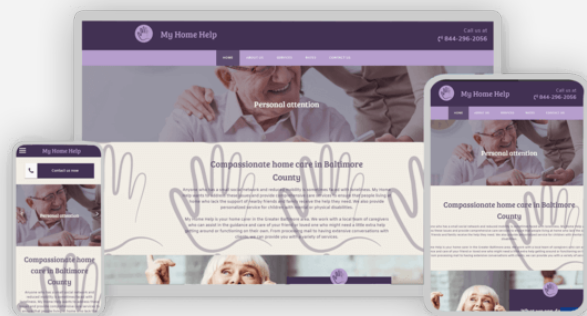

User-friendly elements like buttons, forms, and links allow customers to interact with your site.

Design template examples

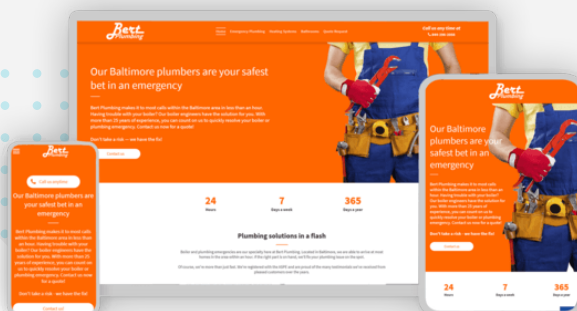

The right website design shows your visitors immediately which business you're in. While the right structure ensures they'll find what their way around easily.

From idea to online in just a few steps

Initial consultation

In the initial phone consultation, we'll ask you about your vision, your business or project, and your website goals. Together we'll come up with a concept for a website that your visitors will love.

Creation

Within a few days you'll receive a preview link to the first draft of your new website. Then, we'll email or call you to go over any changes you want made, and to ensure you're happy with your new website.

Approval

Once you've given us the OK, you'll receive an email with simple instructions on how to publish your website. And if you ever need any help, we're just a call or an email away.

Updates

Keeping your site fresh with new content is vital for keeping customers engaged. On request, we can add promotions or make updates on a regular basis. You can also go your own way and do it yourself with the easy-to-use website builder that's included.

Future-proof tech

We're constantly updating our infrastructure and technology. You can rest assured knowing that your website will always be available and ready for future visitors.

A whole team working for you

"In our initial telephone call, we'll talk about you and what you want to achieve with your website. Who do you want to address? What makes you and your business unique? Once I know what goals you have in mind, I can start planning the best website for you."

Çağla
Marketing Expert and Project Manager

"I'll write copy that meets your business needs and is search engine friendly. For example, I'll find out the most frequently searched keywords and then use them on your website. I'm also happy to edit and check your existing copy if needed."

Marie
Copywriter

"It's my job to make your website look good. I'll make sure that it's tailored to your demands and fulfills the needs of your customers. I'll choose the best design for you and customize it with your own photos and stock images from IONOS."

Sebastian
Webdesigner

"Simply tell us what you're looking for in a website and we do the rest. We're here to save you time and provide you with a professional website you can be proud to call your own."
