

The background features a cityscape at dusk or dawn, with a prominent building featuring a dome. A large, glowing network of white lines and dots arches over the scene, symbolizing data connectivity. A red and white striped path leads towards the buildings.

# Redefining Data Management

Cloud Archive of the future

Wisdom: Knowledge is power. And information is the new king in the digital knowledge society of the 21st century. Knowledge and information have become the most important resources for companies to be successful in the volatile markets of the present and future.

Dipl. Ing. Thomas Meysel

# Does that sound familiar?

9:00  
Team Meeting

Where are the latest quarterly figures?

10:00  
Contract negotiation with client

Where can I find the current version of the contract with the changes for the customer?

12:30  
A complaint need to be processed

Help, I don't have access to the order ...

16:30  
An applicant introduces herself

Did she sent her references by email – where can I find them?

14:00  
Coordination with the IT department

Is there any way to automate deletion and retention management?

No more time-consuming searching in different filing locations

EASY CLOUD ARCHIVE

Find your data in seconds – instantly and from anywhere

## Four good reasons for easy cloud archive

Certified archive in  
compliance with the law

Roles & rights for  
authorized access

Location-independent  
24/7 availability in the Ionos Cloud

Highest data security in  
German data centers

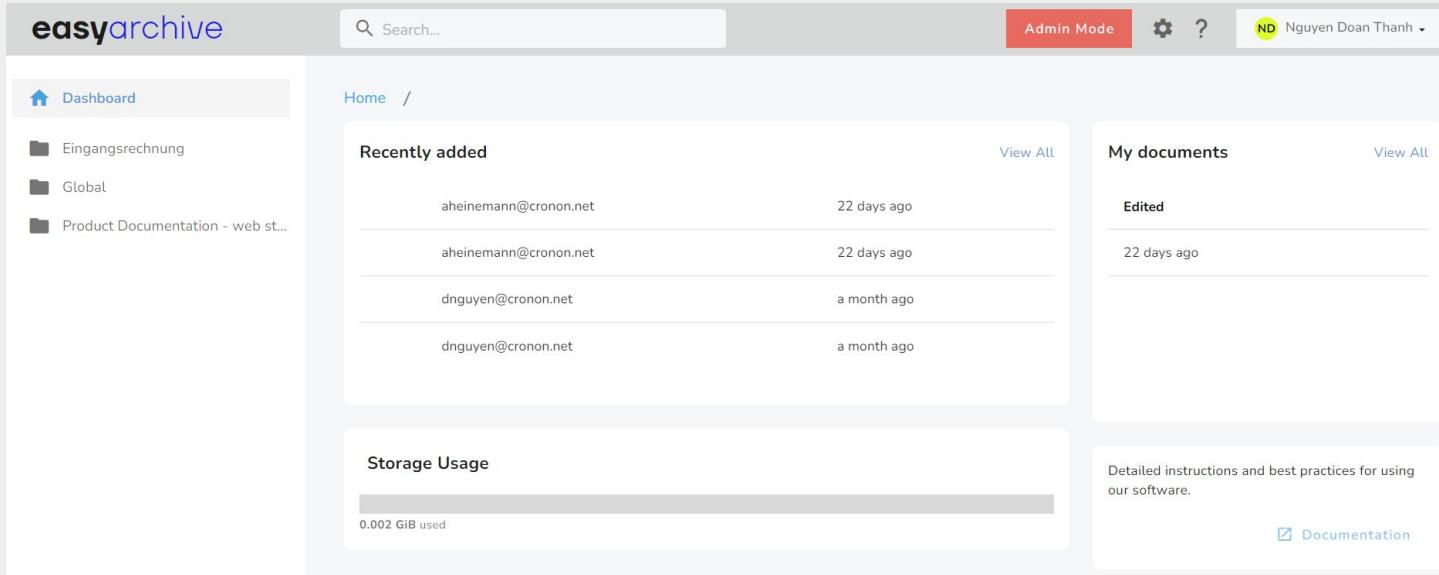

## Our result – your profit at the glance

### One easy cloud archive for all application

archive is the all-rounder for legally compliant data archiving in accordance with GoBD and GDPR, contract management, invoices or employee documents.

- Audit-proof archiving
- Traceable thanks to versioning
- Rights & roles for fine-grained access
- Data protection tools and GDPR-compliant
- Adaptive schema supports every use case
- Flexible operation through cloud operation
- Easy to integrate
- Easy to integrate into any portal

# Curious – how does it look in practice?

The screenshot shows the 'easyarchive' web interface. At the top left is the 'easyarchive' logo. To its right is a search bar with the placeholder text 'Search...'. Further right are buttons for 'Admin Mode', a settings gear icon, a question mark icon, and a user profile dropdown showing 'ND Nguyen Doan Thanh'. Below the header is a navigation sidebar on the left with a 'Dashboard' link and three folder items: 'Eingangsrechnung', 'Global', and 'Product Documentation - web st...'. The main content area has a breadcrumb 'Home /' and is divided into three columns. The first column, 'Recently added', contains a table of documents with columns for email address and time added. The second column, 'My documents', has a sub-section 'Edited' with one entry. The third column shows 'Storage Usage' with a progress bar and '0.002 GiB used'. A 'Documentation' link is at the bottom right.

## Managed Cloud Archive Orderable Versions

Testing phase is possible

A cityscape featuring a canal with a red and white striped path leading across it. In the background, there are modern buildings and a classical building with a dome. A network of white lines and dots is overlaid on the scene, suggesting digital connectivity.

## **Cronon – Your personal managed service provider**

Cronon GmbH has been supporting medium sized companies and public sectors on their path to digital transformation for over 20 years.

As a managed service provider within the IONOS Group, we complement cloud standards with customized services to create a customer-specific overall solution. We attach particular importance to the security and availability of data as well as the scalability and adaptability of our services.

We see ourselves as a technology and service partner to our customers.

With a trained eye for what is feasible, we support them in using the possibilities of modern cloud technology to be prepared for the future.
