Optimum support

gives confidence.

- 1 Cloud transformation at proALPHA
- 2 Service description vs platform capabilities
- 3 Efficient operations as a key to success
- 4 Growth acceleration & multi-cloud
- 5 Q&A

1

Cloud transformation at proALPHA

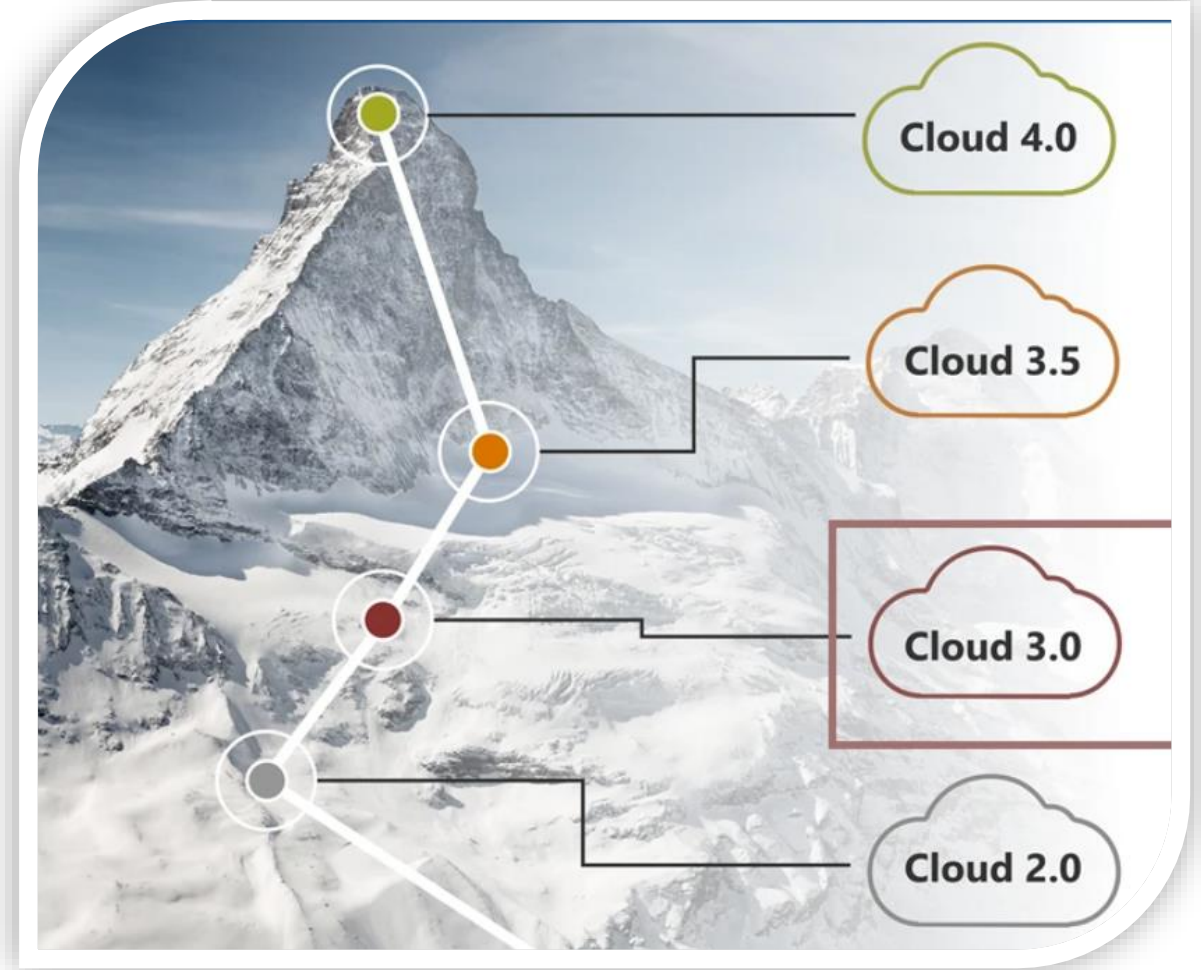

Cloud transformation at proALPHA

- What is proALPHA ?

- Cloud transformation at proALPHA
 - How did we start ?
 - Where we are now ?
 - What is the plan going forward ?

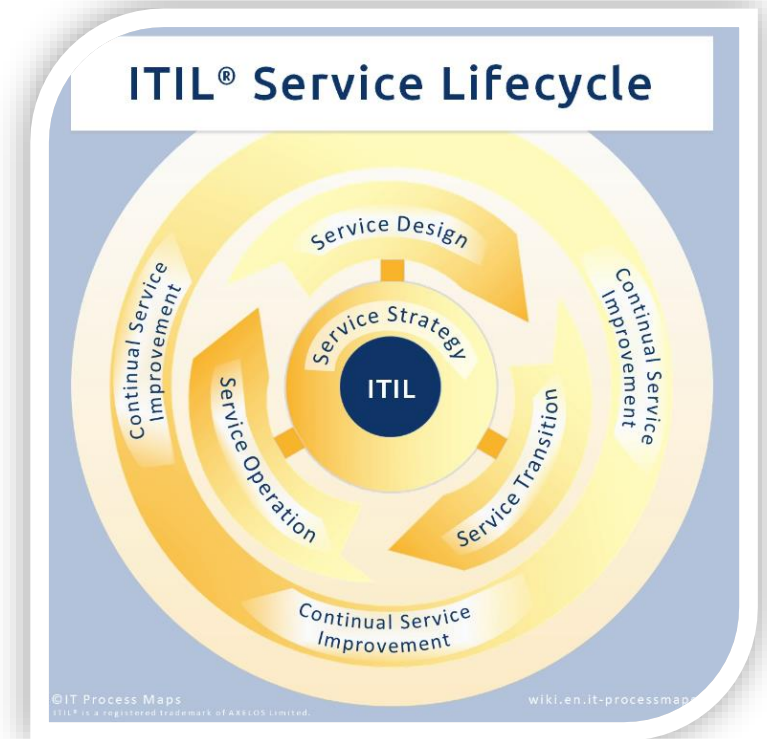

2

Service description vs platform capabilities

Service description vs platform capabilities

- Analyse demands of your customers
- Decide what you want to offer
- Analyse capabilities (IONOS platform)
- Describe your services - Service description
- Deliver – Cloud Operations
- Monitor what you promised (Service level agreement)
- Review and improve

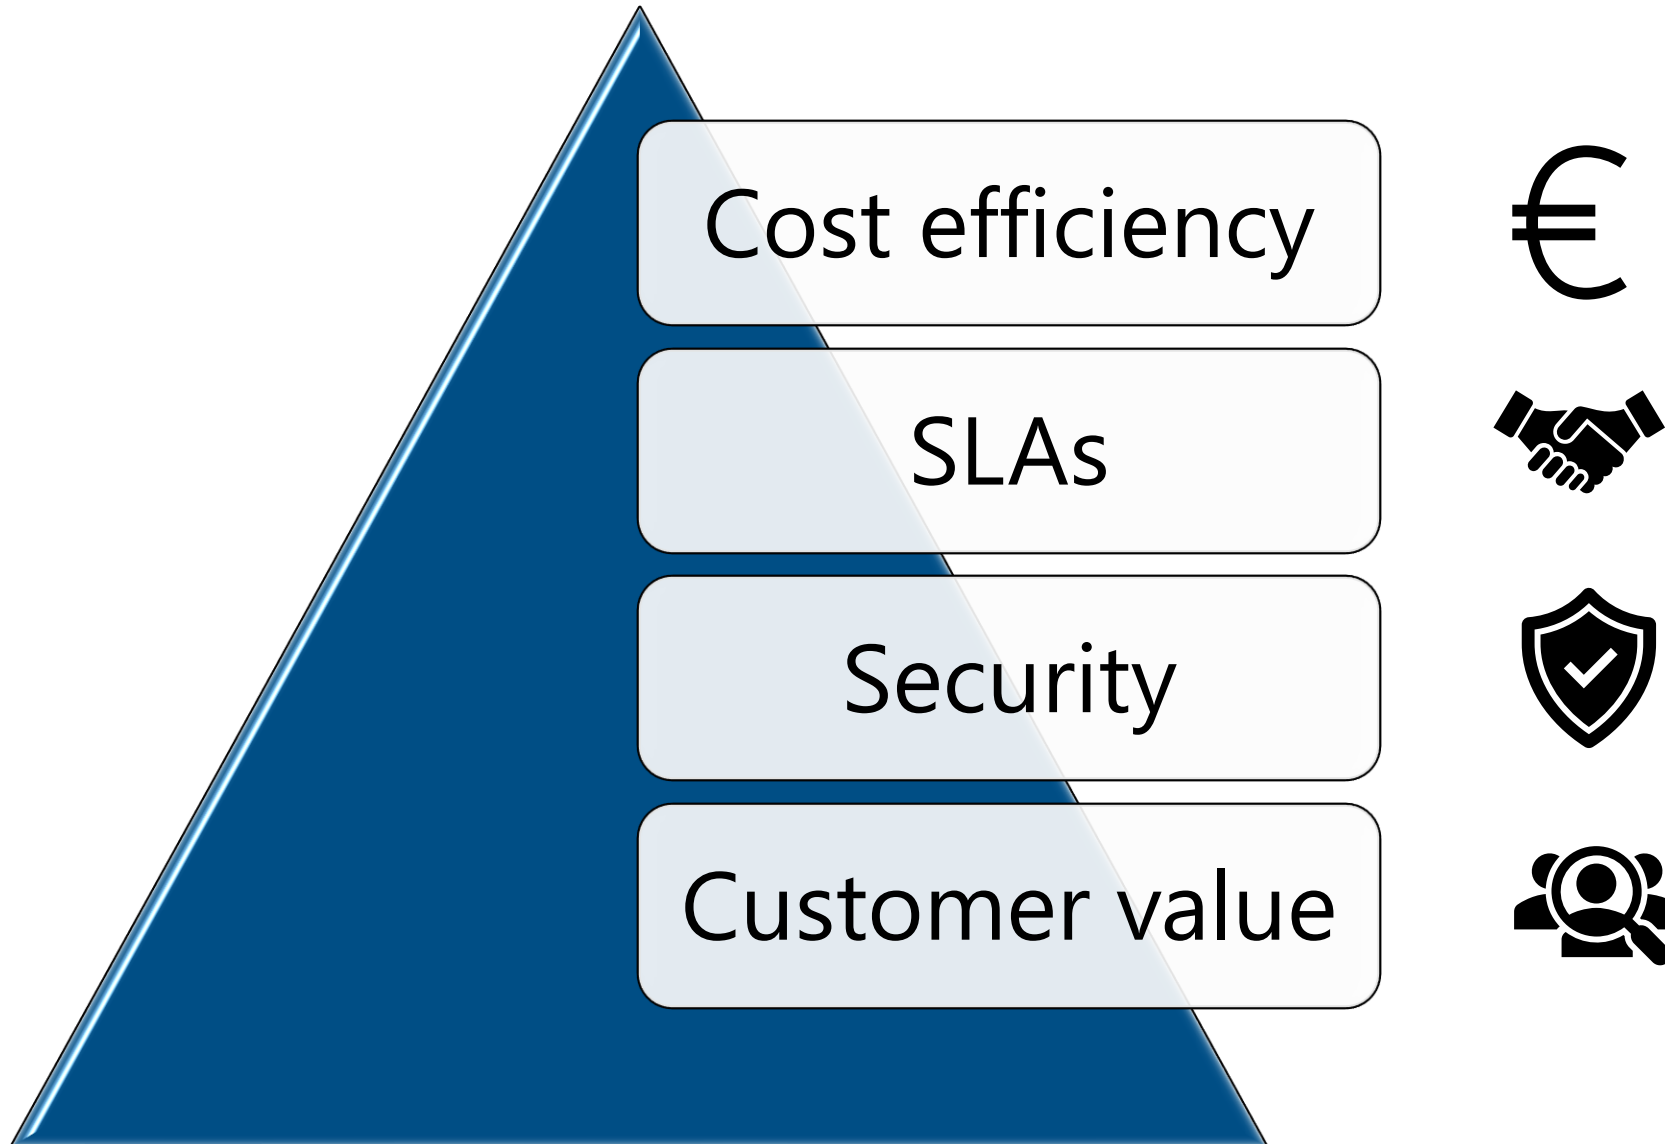

3

Efficient operations
as a key to success

Efficient operations as a key to success

Customer value

Customer value is the customer's perception of the worth of your product or service. Worth can mean several things: the benefit these products or services provide to your target market, or the value for money they offer.

Monitoring practices – SLAs, Security

- Availability monitoring
 - **Why** : Main goal for the availability monitoring is to ensure system availability for customer. Availability monitoring consists of two parts: **infrastructure** and **application** monitoring.
- Security monitoring
 - **Why** : Main goal for the security monitoring is to detect threats, intrusion attempts, and possible data leaks.
- Backup monitoring
 - **Why** : ☺
- Business processes monitoring
 - **Why** : Main goal for the availability monitoring is to ensure system availability for customer. Availability monitoring consists of two parts: **infrastructure** and **application** monitoring. Application monitoring use predefined checks and probes to monitor health of the services e.g. Database status , INWB status etc.
- Capacity monitoring
 - **Why** : Main goal for the capacity monitoring is to ensure that system can work in a stable way and users can do their everyday jobs without any disturbance in performance.
